

## **JobsOhio Regional Network – Southwest Ohio Industry Employment Projection Report: 2014 - 2024**

The Ohio Department of Job and Family Services' Bureau of Labor Market Information updates ten-year employment projections every two years. These state labor statistics are a critical component used to identify [In-Demand occupations](#) in Ohio. An In-Demand job in Ohio is defined as a job that has a sustainable wage and a promising future based on the projected number of openings and growth.

The current projections use employment statistics through 2014 as a foundation to project employment conditions for the 10-year period ending in 2024. The difference between the two years represents new jobs from growth.

Each JobsOhio regional report contains a summary of the employment outlook by North American Industry Classification System (NAICS) industry group. The number of annual openings is the result of both new jobs and vacancies resulting from retirements. The complete Job Outlook, 2014-2024 reports may be found at: <http://ohiolmi.com/proj/projections.htm>.
