

October 2014

A total of 18,789 job openings were posted online from September 14, 2014, through October 13, 2014, for Auglaize, Champaign, Clark, Clinton, Darke, Fayette, Greene, Mercer, Miami, Montgomery, Preble and Shelby counties, according to data from The Conference Board. This was a decrease of 70 ads from the previous reporting period. Compared to the same time period a year ago, this reflects an increase of 1,772 ads. The graph below shows historical trends for ads posted in this area over the last several years.

This report, and reports for other JobsOhio regions, can be found [here](#) and at www.ohiomeansjobs.com.

EDITOR'S NOTE: The information provided in this report is based on Help Wanted OnLine® (HWOL) data provided by The Conference Board. This series is compiled with Wanted Analytics Software. Third-party, staffing agencies and anonymous employers are not included.

This information is a snapshot in time and may not represent long-term trends. Any of this data, including historical reports, may vary slightly over time, as minor revisions are continually made to this live database. Some ads may appear in two or more occupation codes and may be counted more than once. This information should be used in conjunction with local labor market information to analyze current occupational demand.

This data has not been seasonally adjusted. Sometimes seasonal adjustment is used to remove fluctuations in unemployment and labor force trends that normally occur with changes in the season. Seasonal variation in employment occurs for natural and institutional reasons, including reduced employment involving outdoor activities during winter, changes in labor force and unemployment levels with opening and closing of schools, and layoffs during the automobile model changeover period. Seasonal variations can also affect the number of online job ads, so over the year it will affect the data in this report.

The Conference Board is a global, not-for-profit independent business membership and research association working in the public interest. Wanted Technologies Corporation is a leading supplier of real-time sales and business intelligence solutions for the media, classified and recruitment industries. The Wanted Analytics system aggregates real-time data from thousands of job, real estate, newspaper and corporate websites on a daily basis.
