July 2020

BUILDING Ohio's Workforce
CREATING Innovative Solutions
PROMOTING Economic Independence and Growth

1. Employment Percent by Industry

The table below shows how jobs are distributed throughout the county by industry. The higher the percentage, the more workers there are in the industry. Multiple years are shown to demonstrate how employment in the industries may have shifted over time. However, percent change across years does not necessarily indicate growth or decline in employment by industry.

1a. Employment Percent by Industry

Industry Name	Percent Annual Employment in Industry		
	2004	2010	2018
Manufacturing	42.3%	34.6%	38.7%
Health Care and Social Assistance	9.9%	10.5%	11.6%
Construction	5.8%	8.1%	9.6%
Retail Trade	7.8%	8.4%	8.3%
Educational Services	6.2%	7.4%	6.2%
Accommodation and Food Services	6.5%	6.7%	4.7%
Other Services (except Public Administration)	3.6%	3.7%	3.3%
Wholesale Trade	3.6%	4.7%	3.0%
Public Administration	2.8%	3.5%	2.8%
Administrative and Support and Waste Management	2.3%	2.0%	2.5%
Mining, Quarrying, and Oil and Gas Extraction	1.8%	1.4%	1.8%
Finance and Insurance	2.1%	3.4%	1.8%
Transportation and Warehousing	1.2%	1.5%	1.7%
Agriculture, Forestry, Fishing and Hunting	0.6%	1.1%	1.5%
Professional, Scientific, and Technical Services	0.8%	1.0%	0.9%
Information	0.8%	1.1%	0.8%
Utilities	0.4%	0.5%	0.4%
Arts, Entertainment, and Recreation	0.5%	0.4%	0.3%
Real Estate and Rental and Leasing	0.3%	0.1%	0.1%
Management of Companies and Enterprises	N/A*	N/A*	N/A*

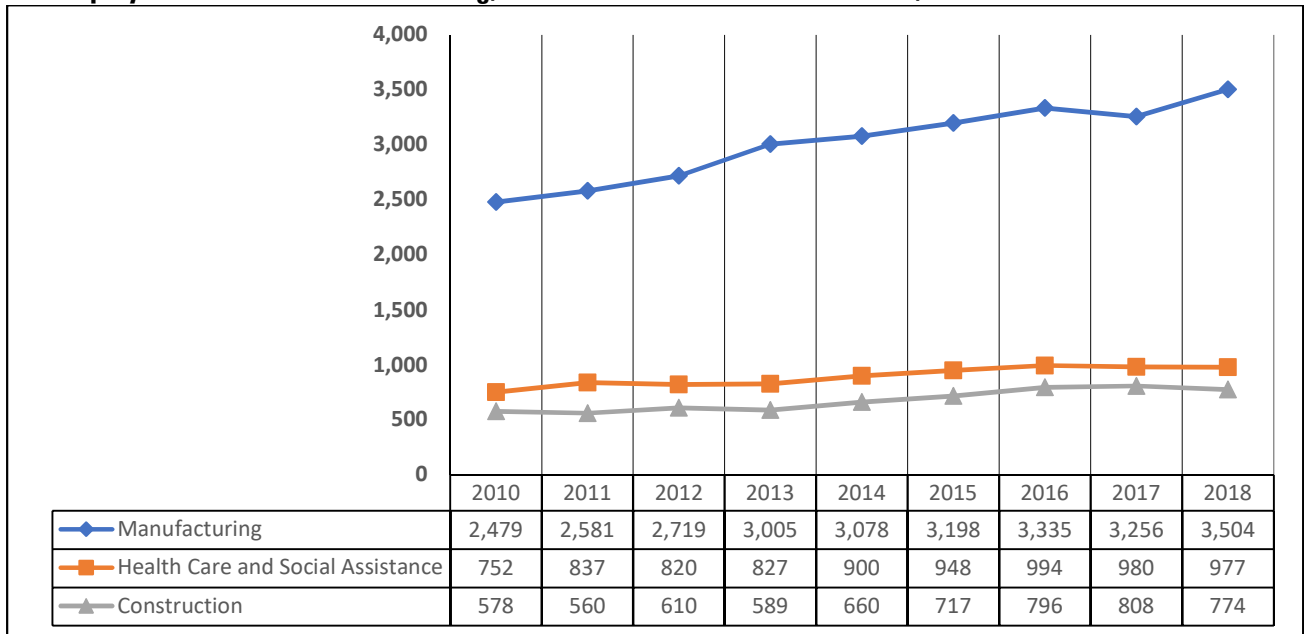

Source: U.S. Census Bureau, Quarterly Workforce Indicators, excludes federal government.

*Data non-disclosable as it does not meet U.S. Census Bureau publication standards. Columns may not sum to 100 percent due to both U.S. Census Bureau methodology and the effects of rounding. The difference between summed percentages (<100%) and 100 is not the employment share of the non-disclosed industry.

2. Employment, Wage and Firm Size Trends

The next series of tables and graphs provide more information on the top 3 industry shares of county employment for the most recent year identified in the previous chart. Detailed information includes annual employment and wage trends for the three sectors. Employment and wage trends show fluctuations and indicate growth or decline over the years.

2a. Employment Trends – Manufacturing, Health Care and Social Assistance, and Construction

Source: U.S. Census Bureau, Quarterly Workforce Indicators, excludes federal government.

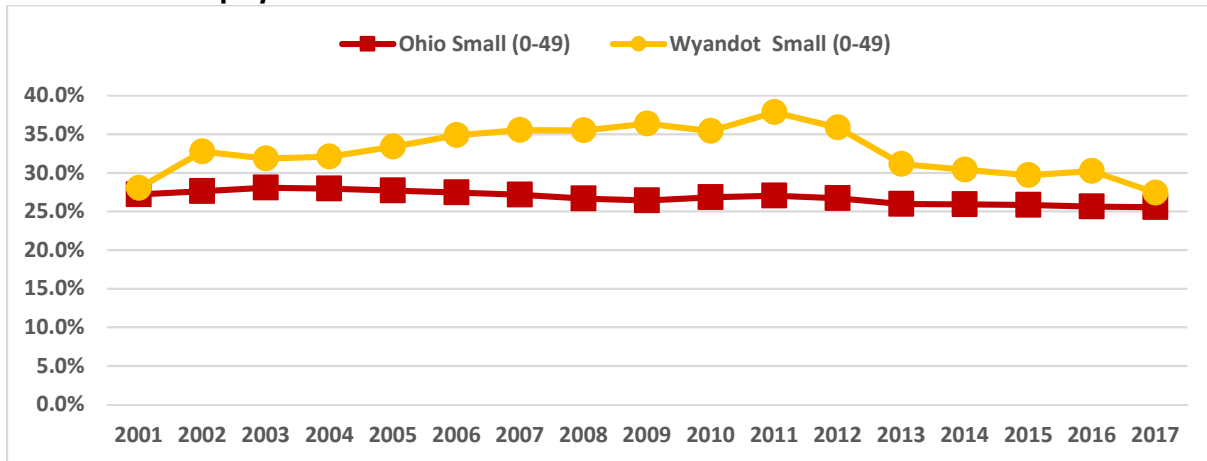

2b. Wage Trends – Manufacturing, Health Care and Social Assistance, and Construction

Source: U.S. Census Bureau, Quarterly Workforce Indicators, excludes federal government.

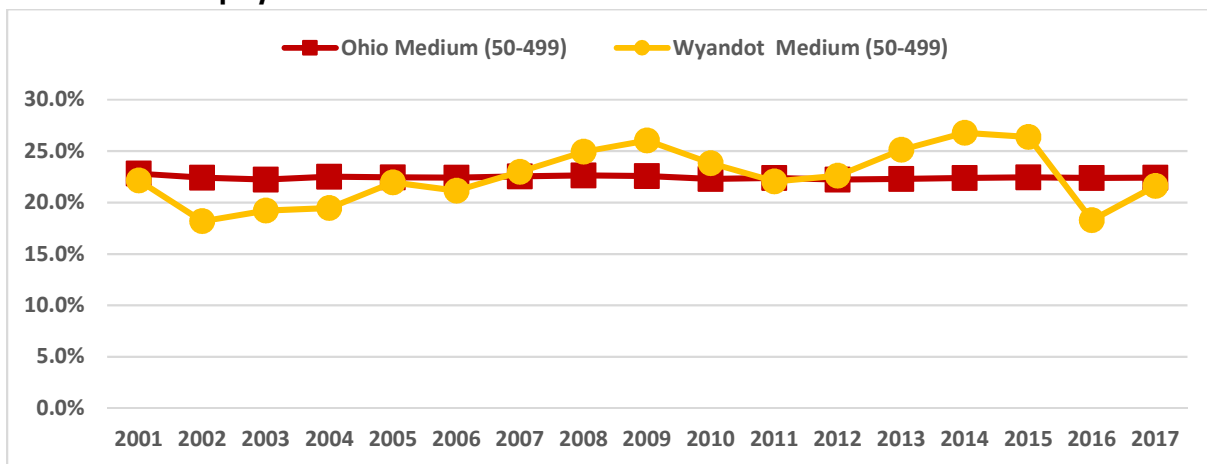

The following three charts compare the percentage of employment in firm size between the county and Ohio. Tables comparing firms with 0-49 employees (small firms), 50-499 employees (medium firms), and 500+ employees (large firms) are shown. When a large firm dominates an area, downturns in that industry will have a greater impact on a county than when employment is dispersed among many small or mid-size firms.

2c. Percent of Employment in Small Firms

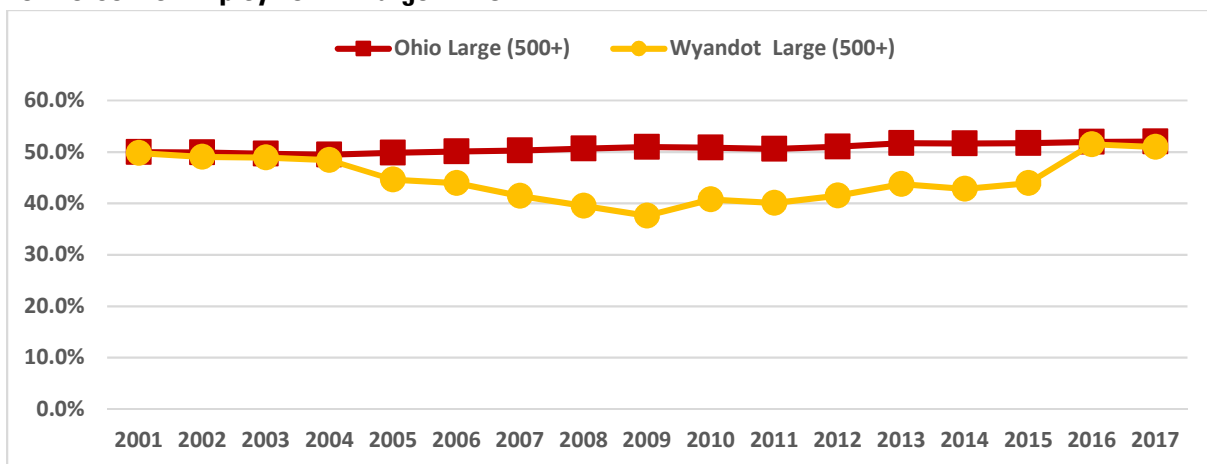

Source: U.S. Census Bureau, Quarterly Workforce Indicators, private ownership only.

2d. Percent of Employment in Medium Firms

Source: U.S. Census Bureau, Quarterly Workforce Indicators, private ownership only.

2e. Percent of Employment in Large Firms

Source: U.S. Census Bureau, Quarterly Workforce Indicators, private ownership only.

3. Online Job Postings

The following section provides a count of online job advertisements for the county. It is a snapshot of one aspect of the labor market and provides a look at labor demand by industry within the county.

3a. Online Job Postings by Industry, 1/1/2019 – 12/31/2019

Industry	Ads
Manufacturing	96
Retail Trade	76
Transportation and Warehousing	64

4. Industry Turnover Rates

The following table looks at industry turnover rates for Ohio and by county. Turnover rates are calculated from stable employment (employment that lasted one calendar quarter with the same employer) and are an indicator of job churn. Industries with high churn will have more openings to replace workers than industries with low churn. It should be noted that this calculation does not include short-term employment that lasts less than a full quarter.

4a. Industry Turnover Rates, Statewide and County

Industry	Ohio				Wyandot County			
	2018Q1	2018Q2	2018Q3	2018Q4	2018Q1	2018Q2	2018Q3	2018Q4
All NAICS Sectors	8.5%	8.2%	8.2%	9.2%	8.0%	7.6%	8.7%	7.5%
Manufacturing	5.5%	5.5%	5.5%	5.4%	6.8%	6.4%	7.5%	7.1%

5. High School Enrollment

The table below shows annual enrollment trends for high school seniors for public, private and charter schools by fiscal year, where FY 18 represents the school year 2017-2018. Enrollment is the count of students in October of the school year. School enrollment is important as it has implications for the workforce as well as the county's capacity to accommodate its students. Enrollment changes can be affected by boundary changes or redistricting. Also presented in the table is information regarding the number of OhioMeansJobs.com K-12 accounts that migrated to regular OMJ accounts.

5a. Number of High School Seniors

Fiscal Year	Number of 12th Graders*				OMJ K-12 Accts Migrate to Regular Acct***
	Public	Private	Charter	Total**	
2015	210	0	0	210	43
2016	231	0	0	231	122
2017	214	0	0	214	122
2018	230	0	0	230	293
2019	212	0	0	212	354

*Source: Ohio Department of Education. All data that represents <10 students is masked to ensure student privacy.

**Does not include <10 estimate.

***Source: Monster Government Solutions, K-12 data accessed December 2015, December 2017 and July 2018.

6. Local Area Talent Report

The next set of tables highlight resumes or talent in the local area. This data provides useful information on the workforce in the local area and presents a snapshot of skills and educational levels. The local reports are created using the Monster.com Talent Dashboard tool and are based on activity or logging into OhioMeansJobs.com or Monster.com in the previous three years. The workforce skills table is organized in ascending order and starts with the skill reported least often and ends with the most reported skill.

Resume Snapshot (April 2020)

There were 1.5 million total resumes in OhioMeansJobs.com of Ohioans and others willing to relocate to Ohio. Resume counts for the county, veterans, and restored citizens are shown below. Note: resumes for restored citizens are for individuals incarcerated in the Ohio Department of Rehabilitation and Correction who had an active resume and a release date in 2020.

County	Total Resumes	Total Veteran Resumes	Total Restored Citizen Resumes*	Total Individuals with a Disability Resumes
Wyandot	1,728	84	0	0

Source: Monster.com and Monster Government Solutions.

*County was determined based on home/returning address provided by incarcerated individuals.

Source: Monster Government Solutions, April 2020.

6b. Educational Level

Source: Monster Government Solutions, April 2020. See "Quick Guide to Understanding the County Economic Health Reports" for description of educational categories.

7. Educational Attainment

The following table shows the distribution of educational attainment by age group for county residents. Educational attainment refers to the highest level of education completed.

7a. Educational Attainment by Age Group

Age categories	Less than 9th grade	9th to 12th grade, no diploma	High school graduate (includes equivalency)	Some college, no degree	Associate's degree	Bachelor's degree	Graduate or professional degree	Total
18 to 24 years	64	957	4,134	14,793	446	2,363	205	22,962
25 to 34 years	129	470	3,359	3,584	1,745	4,208	2,197	15,692
35 to 44 years	238	376	3,407	2,879	1,615	3,330	2,615	14,460
45 to 64 years	265	1,289	10,401	5,673	3,892	5,609	4,199	31,328
65 years and over	415	1,573	7,787	3,604	994	2,249	2,200	18,822

Source: American Community Survey, 5-year estimates, 2013-2017.

8. Veteran Employment at the Local Level

The following table represents a snapshot of veteran and nonveteran labor force population (i.e., estimate of the employed and those looking for work); the labor force participation rate (i.e., percent of the total population participating in the labor force); and the unemployment rate (i.e., percent of the labor force that is unemployed). Veterans are those who have ever served on active duty in the U.S. Armed Forces, Reserves, or National Guard.

8a. County Veteran and Nonveteran Employment Estimates

	Nonveterans	Veterans
Labor Force Population	9,943	488
Labor Force Population Rate	80.5%	79.9%
Unemployment Rate	3.8%	2.5%

Source: American Community Survey, 18-64-year-olds, 5-year estimates, 2013-2017.

9. Civilian Labor Force and Commuting Patterns

The next set of tables look at the civilian labor force and commuting patterns of workers in the county. The civilian labor force is the sum of the employed and unemployed. It is based on civilians 16 years of age and over who are working or seeking work. It excludes military personnel, persons in institutions, those studying or keeping house full-time, retirees, and volunteer workers. This is the available workforce, and used in conjunction with commuting patterns data, one can see where workers in the county live and work. Commuting information is based on all jobs held. Commuting trends data are also presented to see inflow and outflow trends of workers, including the top work counties for out-commuters and top home counties for in-commuters.

Wood County OH	167
Franklin County OH	149
Lucas County OH	106
Morrow County OH	80
Richland County OH	75

Source: U.S. Census Bureau, OnTheMap. Includes all jobs, 2nd quarter only.

10. Area Population to Jobs

The graph below and map on the next page look at the population to jobs ratio. The prime working-age population consists of those ages 18 to 64. However, not everyone in the working-age population is employed – they may be going to school, caring for children or others, or retired. As the population-to-jobs ratio increases, there are more workers living in the county than there are jobs, meaning there will be more competition for jobs in that county. Workers in high-ratio counties may be more likely to commute to other counties for work. A lower population-to-jobs ratio would indicate the county could have a higher ratio of in-commuters. This will be rare, but a population-to-jobs ratio less than one would indicate there are more jobs than workers. The graph below compares the county population to jobs ratio to the statewide ratio. The map shows population to jobs ratio for all counties.

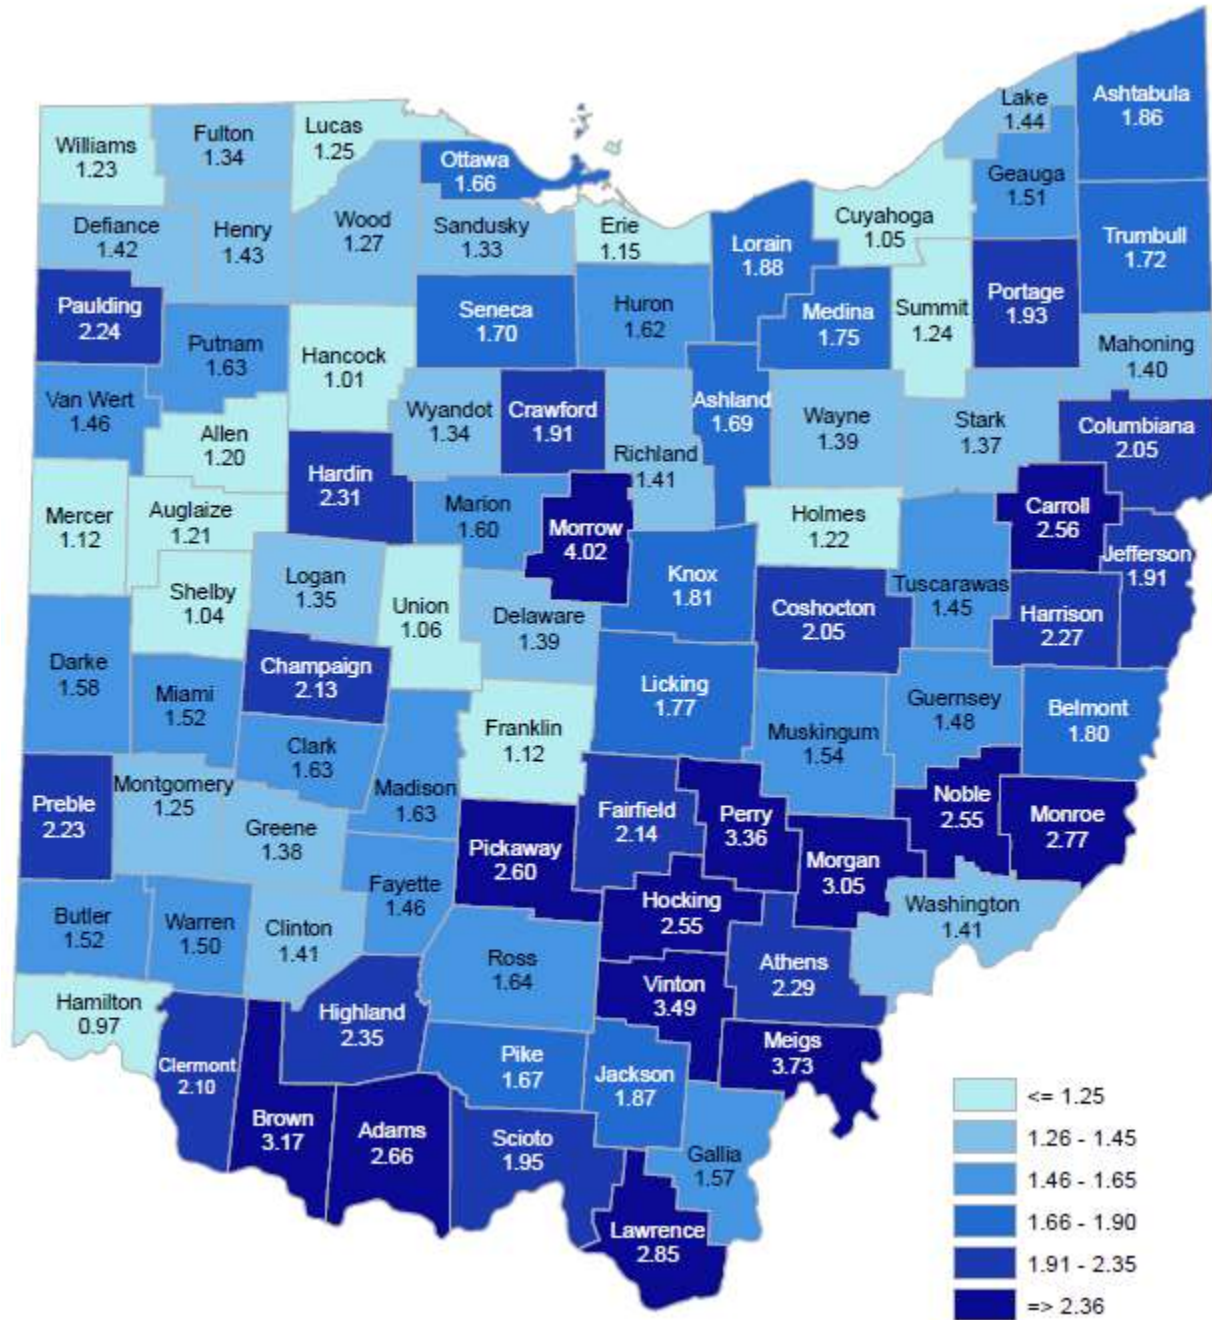

10a. Ohio and County Population (18-64-year-old)* to Jobs Ratio, 2018**

**Source: U.S. Department of Labor, Bureau of Labor Statistics, Quarterly Census of Employment and Wages

11. Profile of UI Claims

The next set of charts compares demographic characteristics of unemployment insurance claimants and people in the labor force for the county. These graphs can show if some segments of the labor force are filing higher proportions of claims. However, certain industries with seasonal work patterns and/or typical shut down periods, such as construction and manufacturing will have higher proportion of men than women. Differences between the labor force and UI claimants can be used to target intervention and training programs.
